

Devereux's Chance of a Lifetime - Living Healthier Contest

Have you or your spouse/domestic partner had preventive care visits between September 1, 2020 and now, or will you be receiving any of the following preventive care screenings before August 31, 2021?

- **Breast cancer (mammogram)**
- **Cervical cancer (Pap test)**
- **Colorectal cancer (colonoscopy)**
- **Prostate cancer (exam/blood test)**
- **Diabetes (blood test)**
- **Physical exam**- Covered every two calendar years if 22-39 years old; covered every year if 18-21 and beginning at 40 years old.

Not only will you earn 5 to 10 points for the Health and Wellness Program (which also includes the flu vaccine), **anyone who receives any of the above screenings will have a chance to win!**

What's the prize? Single qualified employee portion of medical coverage for 2022!

Why is Devereux Advanced Behavioral Health offering this prize to **one employee at each center**? Preventive care is very important, and we want to ensure that all employees enrolled in Devereux's Independence Blue Cross medical plans are taking advantage of the recommended screenings.

Winners will be announced during Open Enrollment. For Living Healthier Contest questions, please contact your local People Operations representative or Jelsy Kravatz at jkravatz@devereux.org.
