Medical Insurance (2 Options):

• **Dev Medical**: Through Independence Blue Cross. PPO Plan in-network only except for emergency services. This plan provides physician, specialist and hospital coverage with copay, deductible and out-of-pocket maximums determined by your salary. Rx is provided through CVS/Caremark but is included in the medical election in Oracle Self-Service. Outpatient and/or inpatient care for mental and behavioral health issues provided by Magellan Behavioral Health. In-network benefits are provided at 100% after applicable copays and deductible with no limitations; out-of-network benefits are provided at 50% with day and annual limits.

• **Blue Cross HDHP**: High Deductible Health Plan (HDHP) with a Health Savings Account (HSA). **Medical, behavioral health and prescription drug coverage are included in this benefit.** High Deductible Health Plan requires that you pay up to the deductible (Single is $2,300), then insurance pays at 80% except hospitalization (pays at 100%) until you reach out-of-pocket maximum (Single is $3,470), then insurance pays at 100%. Health Savings Account (HSA) through Optum is a pre-tax savings account where your contributions accumulate and can be used for any out-of-pocket health costs. HSA dollars can be used to pay for medical expenses without incurring taxes and any unused money rolls over each year to be used for any future medical expenses.

Prescription Drug Insurance (Dev Rx):

• Through CVS/Caremark. Except for antibiotics and allergy serum, only the first fill and one refill is available at a retail pharmacy.
